

Regional Urban Weather and Climate Modelling for Urban Resilience

 **Date:** Friday 12 June 2026

 **Time:** 10:30 – 15:00 (UK time)

 **Venue:** Room 4.50, Simon Building, The University of Manchester, M13 9PL, UK

Before 10:30 Registration and Refreshments

10:30 – 10:45 Welcome and Opening Remarks, Zhonghua Zheng
Project PI

10:45 – 11:45 Presentation Session 1 (10-12 min talk + 3-5 min questions)

10:45 – 11:00 Huge Zhang

Deputy Director, Centre for Climate Research Singapore, MSS

Urban scale weather and climate modelling in CCRS: current status and future plans.

11:00 – 11:15 Joe Ravetz

Manchester Urban Institute

From modelling to intelligence to action: how to bridge the science-policy-strategy gaps and barriers

11:15 – 11:30 Fangxin Fang

Senior Research Fellow at Imperial College London

Multiscale physics-based and AI data-driven modelling for sustainable urban management

11:30 – 11:45 Francis Tam

Associate Professor at The Chinese University of Hong Kong

Effects of urbanization on extreme rainfall associated with remnants of tropical cyclone Haikui (2023) over the Pearl River Delta region

11:45 – 12:00 Coffee break

12:00 – 13:00 Presentation Session 2 (10-12 min talk + 3-5 min questions)

12:00 – 12:15 David Schultz

Professor at The University of Manchester

TBC

12:30 – 12:45 Prof Geoffrey Levermore

Emeritus Professor at The University of Manchester

The need for urban heat island data in design weather data for resilient buildings

12:45 – 13:00 Elizabeth Lewis

Senior Lecturer at The University of Manchester

TBC

13:00 – 14:00 Networking & Lunch (Room 1.06 Simon Building)

14:00 – 14:30 Presentation Session 3 (10-12 min talk + 3-5 min questions)

14:00 – 14:15 Wenyuan Li

Postdoctoral Research Fellow, The University of Manchester

TBC

14:15 – 14:30 Yuan Sun

PhD Student, The University of Manchester

Future atmospheric and urban response to phased deployment of white roofs in Hong Kong

14:30 onwards: Networking and Discussion (optional)
