

Regional Urban Weather and Climate Modelling for Urban Resilience

Date: Friday 12 June 2025

Time: 10:30 – 15:00 (UK time)

Venue: Room 4.50, Simon Building, The University of Manchester, M13 9PL, UK

Before 10:30 Registration and Refreshments

10:30 – 10:45 Welcome and Opening Remarks, Zhonghua Zheng

Co-Lead for Environmental Data Science and AI at Manchester Environmental Research Institute

10:45 – 12:00 Presentation Session 1 (10-12 min talk + 3-5 min questions)

10:45 – 11:00 Huge Zhang

Deputy Director at Centre for Climate Research Singapore
TBC

11:00 – 11:15 Joe Ravetz

Manchester Urban Institute

From modelling to intelligence to action: how to bridge the science-policy-strategy gaps and barriers

11:15 – 11:30 Fangxin Fang

Senior Research Fellow at Imperial College London
TBC

11:30 – 11:45 Francis Tam

Associate Professor, The Chinese University of Hong Kong

Effects of urbanization on extreme rainfall associated with remnants of tropical cyclone Haikui (2023) over the Pearl River Delta region

11:45 – 12:00 David Schultz

Professor, The University of Manchester

TBC

12:00 – 12:15 Coffee break

12:15 – 13:45 Presentation Session 2 (10-12 min talk + 3-5 min questions)

12:15 – 12:30 Prof Geoffrey Levermore

Emeritus Professor, The University of Manchester

The need for urban heat island data in design weather data for resilient buildings

12:30 – 12:45 Zhonghua Zheng

Co-Lead for Environmental Data Science and AI at Manchester Environmental Research Institute

TBC

12:45 – 13:00 Wenyuan Li

Postdoc research fellow, The University of Manchester

TBC

13:00 – 13:15 Yuan Sun

PhD Student, The University of Manchester

Future atmospheric and urban response to phased deployment of white roofs in Hong Kong

13:15 – 13:30 Xihan Yao

PhD Student, The University of Manchester

TBC

13:30 – 13:45 Fengyuan Tian

PhD Student, The University of Manchester

TBC

13:45 – 15:00 Networking & Lunch (Room 1.06 Simon Building)
